

NIJSHA ENTERPRISE
The Support of Global Industries

January 2016

Nijsha Enterprise has launched a new version of our website. As technology is ever changing, we felt it was time our website grew up a little bit, not just aesthetically but also in content and functionality. Our goal is to provide a high level of service for our customers. We realized it was time to bring a high level of service to our website too.

To improve on our past website we have integrated many new features including social media, new product gallery, and an RFQ Interactive Template. We want to communicate and connect with you on all your favorite sites- Facebook, Twitter and LinkedIn. We too are joining the social media conversation and hope that you will engage in conversation with us!

Finally, but perhaps most importantly, the new version of our website puts the Nijsha Enterprise team front and center. We want you to know who we are and what we specialize in. We love what we do, we are active in the aerospace, automotive, medical, and military industry and we believe in the services we provide. Get to know us so that we can get to know you.

We have worked hard to bring our standard of service, "The Nijsha Experience" to you, our customers, and now we hope to show you through our website.

Regards,

Jerrell Johnson Jr.
Owner, Nijsha Enterprise Inc.
