

NIJSHA ENTERPRISE
The Support of Global Industries

July 2007

Nijsha Enterprise is pleased to announce its MBE/WBE Certification. In anticipation of a growing number of potential customers embarking on ISO 9000:2000/AS9100 certifications, we have also made the decision to pursue our ISO 9000:2000/AS9100 Rev B certification. Nijsha is committed to providing the best possible support, marketing processes and the overall commitment to quality improvement. In doing so, we are pursuing the certifications that are recognized worldwide!

We realize that there are a number of businesses that are requiring companies such as ours to have the ISO 9000 in place when conducting business. We also recognize the importance of improving our company's overall performance. As decision-makers, Nijsha understands the need to keep an open mind to ideas that others are using with great success. With that being said, Nijsha has decided not to wait until clients pressured us to make those changes; we have made our decision to move forward to obtain our MWBE certification and other certifications as well.

We also anticipate that with these changes will come new opportunities for Nijsha to expand its capabilities. This is all the more reason for you to include us in your RFQ/Inquiry processes. Having our MWBE and pending ISO 9000:2000/AS9100 Rev B Quality Management System will assist in bringing all things together in a more stress-free and harmonious fashion. Nijsha Enterprise will be taking full advantage of the marketing and post advertising opportunities to keep our customers informed of our progress and additional services. Look for upcoming press releases and news from Nijsha Enterprise, Inc. Please let us know if we can assist you with:

Cable and Harness Assemblies
Wire Wrap Assemblies
PCB Assemblies

Coaxial Cables
Electronic Components
Box Builds

RF Cables
Electro Mechanical Assemblies
Build to Print

We look forward to working with you!

Regards,

Jerrell Johnson Jr.
Owner, Nijsha Enterprise Inc.
