

NIJSHA ENTERPRISE
The Support of Global Industries

September 2007

Nijsha Enterprise is pleased to announce that we have received our ISO Certification 9001:2000/AS 9100:2004 Rev B. In anticipation of a growing number of potential customers embarking on ISO certifications, we have also joined the ranks of reaching the highest possible quality standards. Nijsha is committed to providing the best possible support, marketing processes and the overall commitment to quality improvement. In doing so, we are pursuing the certifications that are recognized worldwide!

We realize that there are a number of businesses that are requiring companies such as ours to have the AS 9100 in place when conducting business. We also recognize the importance of improving our company's overall performance. As decision-makers, Nijsha understands the need to keep an open mind to ideas that others are using with great success. With that being said, Nijsha has decided not to wait until clients' pressure us to make those changes; we have made our decision to move forward to obtain our certifications expeditiously.

Having our MWBE and ISO 9001:2000 Quality Management System will assist in bringing all things together in a more stress-free and harmonious fashion. Nijsha Enterprise will be taking full advantage of the marketing and post advertising opportunities to keep our customers informed of our progress and additional services. Look for upcoming press releases and news from Nijsha Enterprise Inc.

We look forward to working with you!

Regards,

Jerrell Johnson Jr.
Owner, Nijsha Enterprise Inc.
